RE: ERBA Mechanical

13th November 2018

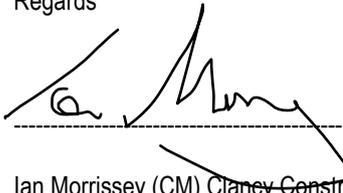

Dear Sir/ Madam,

I can confirm that Clancy Construction have contracted ERBA Mechanical to carry out the full installation of mechanical services for the fit out of a six storey city centre office block at 48-50 Cuffe St.

In my opinion the procurement of ERBA to carry out this work has contributed to the success of this project. They have in partnership with the electrical contractor and Clancy carried out the full M&E co-ordination of services on the project. Following this they have proceeded to carry out the installation of their contract works in a professional and timely manner in keeping with the fast track programme which Clancy have set. ERBA have shown a willingness to complete works on time, safely and to a high quality standard. ERBA have also shown to me their ability to deal with difficulties arising on site in a professional manner with a view to resolving matters proactively.

I would have no problem recommending ERBA for works and indeed I look forward to working with ERBA & Ger Hutchison on future projects.

Regards

Ian Morrissey (CM) Clancy Construction

Date: 14th November 2018

Project No. 1811

To whom it may concern

Reference: Erba Engineering

CEL had the pleasure of working with Erba Engineering in 1WML for the 3rd floor fitout for Core Media, which was completed in January 2018.

The fitout was approximately 3200m² of grey box office fitout where Erba installed the mechanical services to an extremely high and organised standard.

In the end the project was considered for medium size office fitout of the year where it was runner up.

We would have no hesitation in recommending them for any scale of work as their work and attention to detail is second to none.

Brian Conlon – Director of CEL

TO WHOM IT MAY CONCERN

I can confirm that Erba Engineering Services of, Unit 6 Ballymount Cross Business Park, Ballymount, Dublin 24 carried out the Replacement of pipe work & repair / replacement of ceilings of our bedroom corridors in January & February 2020.

Ger Hutchinson and his team carried out their duties with great detail, care & professionalism during the replacement works in conjunction with the hotel management team.

Ger also support with follow checks after the work was completed to ensure we were satisfied with their work.

I would like to take this opportunity to thank Ger & his team for all their hard work and commitment while working with in the hotel. I would have no hesitation recommending Erba to any future hotel.

Please do not hesitate to contact me personally at +353 (0)8793 48417.

Yours sincerely,

Kevin Brennan

To Whom It Concern,

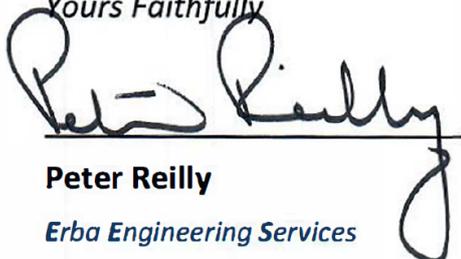

I am writing to you on behalf of Erba Engineering to qualify and endorse our working relationship with Jabes Interiors and provide background information on the company and our sectors of work.

Erba Engineering was founded in 1981 by our current Chairman Mr John White. Erba is a privately owned and managed business with a flexible, client focused approach and an appreciation of the value of long-term business relationships. The Company has built up extensive Mechanical & Electrical installation experience with projects completed in Hospitals, Office Development, Shopping Centres, Hotels as well as large scale process installations in utilities pharmaceuticals and manufacturing industries.

We have worked with Jabes Interiors as a subcontractor on several projects including the recently completed office fit-out in 15 Merrion Square where we carried out the full Mechanical & Electrical installation for the project. In our short working relationship, we have built a strong rapport with Jabes Interiors and look forward to continuing that relationship on future projects.

I'm happy to recommend the services of Jabes Interiors and potentially provide Mechanical & Electrical services on their projects in the future.

Yours Faithfully

Peter Reilly
Erba Engineering Services

**Kuehne + Nagel Ireland Ltd

Swords,
Co. Dublin**

To whom it may concern,

I am writing to recommend the services of Erba Engineering. Erba have been one of the main contract providers on our recent fit out of our new site in Horizon Logistics Park, Unit D2.

During the fit out process I found Erba to be extremely knowledgeable, very flexible and quick to react to any variations identified throughout the process. Their attention to detail and guidance throughout the process positively impacted the overall project timelines and delivery of the site on time.

Similarly I have found the follow up support service provided since our go live on site to be excellent with the same level of service being delivered after final completion.

I would highly recommend Erba Engineering for an future projects. If you have any questions or require any further information please contact me on the below.

19th November 2018

To whom it may concern,

We have worked with ERBA Engineering on a number of projects over recent years, some of which are indicated below:

- Baxter Healthcare (Sandyford)
- Allergan Pharmaceuticals – Steroids Room Upgrade
- Allergan Pharmaceuticals – UPV11 skid Upgrade
- Allergan Pharmaceuticals – Unit Dose 12 Production Area
- Allergan Pharmaceuticals – Decon Autoclave Upgrade

We found ERBA Engineering highly skilled and very easy to work with. Their installation and workmanship on site was completed to a very high standard. We would strongly recommend ERBA Engineering for any future projects.

If you have any questions or require any further information please contact me on the below.

Yours Sincerely,

Alan Fields
Senior Mechanical Engineer
